Highlights

Hells Revenge is an extremely popular slick rock trail in Moab and is considered a must do for many and is a Jeep Badge of Honor Trail. Hell's Revenge is a wild rollercoaster ride over natural, petrified sand dunes, or "fins" as most people call them. If you take all the bypasses, it's not a very technical trail, however, it's not for the faint of heart. There are a lot of steep climbs and descents over the fins and some areas that you must drive are very close to the edge of high cliffs which can be truly terrifying. For those looking for some added fun, Hells Revenge offers a few optional obstacles; Hells Gate, The Hot Tubs, including the Car Wash and Micky's Hot Tube, then The Escalator, and Tip Over Challenge. The Overlook also offers a great view of the Colorado River from high up on the cliffs. If you only have to pick one trail in Moab, Utah, this is the one 4x4 trail you should pick. It is a bucket list kind of Jeep Trail.

This trail definitely gives you a taste of what Moab has to offer and can easily be said this is the poster child of Moab. With that said, some of the steep ups and downs are to a point that dragging bumpers might be required with vehicles with lower approach and departure angles. A stock Rubicon JLU can do the trail without touch bumpers but might require a spotter in a few spots to ensure the right line.
