## Highlights

Ever gotten stuck going downhill? That is a definite possibility on this trail. Used as the only connecting route between Top of the World and Onion Creek, this trail has a little of everything. It has some wash driving, steep inclines, steep descents, loose soil, big ledges, and epic views. There are several moments of smooth, flat, dirt road, but for the most part, it is a slow, rough, and narrow 4wd road that will challenge even the most equipped vehicles. This offroad trail is the most difficult section of the overlanding route known as the [Kokopelli Trail](#)

## Description

Begin the trail on a smooth, dirt road that quickly takes you down into a steep and rough canyon covered with boulders. Climb your way out of the narrow canyon onto another smooth dirt road just to be surprised by more boulders and more ledges that help regulate your speed in the single digits. The trail follows multiple mesas, a few washes, and provides views of several nearby canyons before leading you straight into the trail's namesake obstacle, which is an extremely steep, 1/4 mile hill peppered with ledges, stairs, and large boulders. If it were not for this unavoidable stretch, the trail rating would be significantly reduced. This trail guide runs the trail north to south. To increase the difficulty, run the trail in the opposite direction.

**Can be very treacherous when wet**
